Two primary goals of this MOU are:

1. **The elimination of all unnecessary interviews of children who are subject of reports of child abuse or neglect and when feasible, conduct only one interview of a child who is the subject of a report of abuse or neglect.**
2. **To ensure community partners have a shared understanding of the duties and responsibilities and the interrelationships of agencies mandated to participate in the memorandum as well as those agencies and professionals who work directly with the problems of child abuse and neglect.**

Throughout the state, each County Department of Job and Family Services (CDJFS)/Public Children Services Agency (PCSA) provides the following services:

Assessment and Investigation: The capacity to investigate and assess accepted reports of suspected child abuse, neglect, or dependency, includes responding to emergency reports within one (1) hour and non-emergency reports within twenty-four (24) hours; Conducting an initial Safety Assessment within a standardized CAPM (Comprehensive Assessment Planning Model) tool within the timeline prescribed in the OAC; Completing a more in-depth CAPM Family Assessment including a clinical and actuarial risk assessment within forty-five (45) working days with the option of a fifteen (15) day extension for extenuating circumstances as prescribed in the OAC; Working collaboratively with other investigative agencies within required timeframes; Evaluating the need for protective, prevention, or supportive services and/or court involvement; And documenting all activities and case determinations.

Service Provision: The capacity to provide services that ameliorate, eliminate, or reduce future child maltreatment and the conditions which led to abuse, neglect, or dependency, includes providing service planning and case management coordination; Identifying and stating the concern and behavior change(s) needed for reunification to occur through the use of the CAPM

Family Case Plan; Monitoring the family's case progress, measuring service outcomes, re-assessing safety and risk, and evaluating permanency options by using the CAPM Case Review and Semi-Annual Review tools; And adhering to existing visitation, documentation, and case closure protocols.

Upon request of law enforcement, Marion County Children Services shall provide assistance and cooperation in the investigation of a missing child, including immediate provision or any information processed by Marion County Children Services which may be relevant in the investigation.

Law enforcement shall notify Marion County Children Services upon learning that a minor child who is alleged to be in the child protection system or who is known or suspected to be abused or neglected has either run away from or is otherwise missing from the home of the care, custody, and control of the child's parents, custodial parent, legal guardian, or non-custodial parent.

I. Standards for Removing and Placing Children:

- **Emergency:** Emergency removal of a child from home is necessary when the child is at imminent risk of harm and in need of protection from abuse, neglect, or dependency. An ex-parte order may be issued with or without a complaint being filed. Prior to taking the child into custody, the judicial fact-finder must make a determination that reasonable efforts were made to notify the child's parents, guardian, or custodian, or there were reasonable grounds to believe doing so would jeopardize the safety of the child, or lead to the removal of the child from the jurisdiction. Juv. R 6 orders can be issued in-person, by phone, video conference, or otherwise. Reasonable grounds must exist to believe the child's removal is necessary to prevent immediate or threatened physical or emotional harm. Findings must be made that the agency either did or did not make reasonable efforts to prevent the removal of the child from their home with a brief description of service provided and why those did not prevent the removal or allow the child to return home, and if temporary custody is granted to the PCSA an additional finding that it would be contrary to the welfare and best interest of the child to continue in the home. If granted, a Shelter Care hearing must be scheduled the next business day but no later than seventy-two (72) hours after the emergency order was issued. If the ex-parte motion is denied, the matter must be set for a Shelter Care hearing within ten (10) days from the filing date.

If law enforcement intelligence indicates that child/ren are present prior to enacting a raid and/or arrest, the law enforcement agency with jurisdiction shall notify Marion County Children Services in advance so that the agency can plan for having the necessary personnel available to minimize the trauma of separation and to ensure that the child/ren receive appropriate protection services.

- **Non-Emergency:** Upon receiving a report alleging child abuse, neglect, or dependency, Marion County Children Services commences an investigation in accordance with the requirements of section 2151.421 of the ORC. If the final case decision rises to the level of court involvement, Marion County Children Services shall approach the juvenile court and file a complaint alleging the child(ren) to be abused, neglected, or dependent per ORC 2151.27. The matter will be set for a Shelter Care/Preliminary Protective hearing expeditiously by the juvenile court.

Reasonable oral or written notice of the time, place, and purpose of the hearing must be provided to the parents, guardian, or custodian unless they cannot be found. The same parties are also entitled to notification that a Case Plan may be prepared, the general requirements, and possible consequences of non-compliance with the Case Plan. The parties will be served with the complaint and summons to appear before the juvenile court. Unrepresented parties are advised by the juvenile court of their right to counsel. Counsel, who also may be assigned as Guardian ad Litem, is appointed for children when

abuse is alleged pursuant to 2151.352 of the ORC and Juvenile Rule 4a. A Guardian ad Litem is appointed to all children subject of abuse, neglect, or dependency proceedings. A separate Guardian ad Litem may be appointed to minor parents or parents who appear mentally incompetent. The judicial fact-finder must determine whether there is probable cause that the child is abused, neglected, or dependent: the child is in need of protection, whether or not there is an appropriate relative or kin willing to assume temporary custody of the child, reasonable efforts were made by Marion County Children Services to prevent the removal or continued removal or to make it possible for the child to return home safely, and for temporary custody orders to Marion County Children Services that it would be contrary to the welfare and best interest of the child to continue in the home. All other temporary orders should be requested and considered at this time.

- J. **Maintaining Operations in the Event of a Disaster:** In the event of a disaster, Marion County Children Services will provide subscribers with a written plan documenting how the agency will continue to maintain operations including, but not limited to, receiving and investigation child abuse, neglect or dependency reports.
- K. **Deserted Child Procedures:** Marion County Children Services follows procedures in section 5101:2-36-06 of the OAC for responding to these reports.

TRAINING

Cross system training is to be provided to and a plan developed by all signatories of this MOU to ensure parties understand the mission and goals identified in this MOU and are clear about the roles and responsibilities of each agency. Periodic training events will be coordinated by Marion County Children Services as the lead agency and notification of the trainings will be provided to the signatories of this agreement. By agreeing to participate in the county MOU process, signatories express a commitment to attend training opportunities when presented.

CONFLICT RESOLUTION

When a conflict occurs among county partners, the effect is often broader than the individuals directly involved in the dispute. As disputes are often inevitable, this MOU must set forth the local process by which disputes will be resolved so as not to disrupt program effectiveness.

As the mandated agency responsible for the provisions of child protection services, the ultimate decision on how to handle child maltreatment investigations lie with Marion County Children Services. Every effort will be made to consider other subscriber's requests and concerns relating to services.

Criminal investigation and prosecution remain the responsibility of the prosecuting attorney and appropriate law enforcement agencies. Marion County Children Services will assist these agencies, but in no way, interfere or jeopardize a criminal investigation or prosecution.

For cases which come before the court as it relates to decisions and orders, the Juvenile Judge's rulings are final.

In the event internal conflict resolution efforts fail and a statutorily required participant refuses to sign or engage in the MOU process, Marion County Children Services is to consult with the prosecutor's office to explore available remedies.

CONFIDENTIALITY STATEMENT

Any report made in accordance with section 2151.421 of the ORC is confidential. Likewise, law enforcement and other entities are expected to release information to Marion County Children Services for the purpose of carrying out its responsibility of protecting children from abuse and/or neglect.

The confidentiality provisions of this MOU will survive the expiration or termination of this agreement.

The unauthorized dissemination of confidential information is a misdemeanor and is punishable by law.

In the event of unauthorized dissemination of information, the party who learns of the breach of confidentiality will notify the Director of Marion County Children Services as soon as possible. The notification will be sent to the Director in writing describing the circumstances surrounding the breach. The notification will specify the information released, who is responsible for disseminating the confidential information, how it was disseminated, and the parties who have access to the information without authorization. The Director of Marion County Children Services shall then refer this information to the prosecutor's office at their discretion.
